SUMMARY

Innovative and highly skilled Full Stack Developer with 8+ years of experience in building scalable web applications, AI integrations, and cutting-edge solutions. Proficient in MERN, MEAN, MEVN and various Python and PHP frameworks. Adept at developing responsive websites, chatbots, and AI-powered applications for sectors such as Fintech, Healthcare, EdTech and more. Experienced in integrating complex systems, building RESTful APIs, and delivering seamless user experiences across multiple platforms.

WORK EXPERIENCE

Senior Full Stack Developer, *N-iX* — 12/2023 – 04/2025, Kyiv, Ukraine
- Led the development of AI-powered chatbots integrated with WhatsApp Business API for automating customer support and sales in the Fintech sector.
- Integrated payment gateways and optimized backend performance for an e-commerce platform, reducing load times by 30%.
- Managed DevOps operations with AWS services (Lambda, EC2) and Docker containers to streamline CI/CD pipelines and optimize resource utilization.
- Designed and deployed a full-stack application with Laravel for real-time analytics and reporting for the company's internal needs.

Full Stack Developer, *QArea* — 04/2020 – 11/2023, Kyiv, Ukraine
- Developed a secure and scalable web application with React and Python(Django) for a client-facing dashboard and reporting system in the Healthcare and EdTech industry.
- Led the implementation of RESTful APIs and integration with external data sources, increasing system reliability and reducing data processing times by 25%.
- Utilized Python frameworks (Django, Flask) for backend development, including building microservices and optimizing server-side performance.
- Developed mobile applications using React Native for both iOS and Android, integrating APIs for real-time data processing and enhancing user experiences.

Junior Full Stack Developer, *Sombra Inc.* — 07/2018 – 03/2020, Kyiv, Ukraine
- Developed responsive web applications using React.js, Vue.js, and Angular, ensuring mobile-first, cross-browser compatibility.
- Designed and developed multiple WordPress sites and custom WordPress plugins for various clients, optimizing their web presence.
- Integrated third-party APIs, including AI-powered systems, into various client projects to automate processes and improve decision-making.
- Worked closely with the UX/UI team to build intuitive and visually appealing interfaces for both mobile and desktop platforms.

EDUCATION

Bachelor of Computer Science, *Kyiv Polytechnic Institute*   09/2014 – 06/2018
Kyiv, Ukraine

SKILLS

Frontend Technologies
- React.js, Vue.js, Angular
- HTML5, CSS3, JavaScript(ES6+), TypeScript
- Tailwind CSS, Bootstrap, Sass, Material UI
- Next.js, Nuxt.js
- Three.js
- Mobile Development(React Native, Flutter)
- Responsive Web Design, Mobile-First Design

AI Integration
- AI Integration: OpenAI(GPT models), TensorFlow, Chatbot Development(Dialogflow, Rasa)
- Machine Learning: Scikit-learn, Pandas, NumPy
- Automation: Zapier, Integromat, Twilio API for messaging systems
- Payment Gateway Integration: Stripe, PayPal, Razorpay, 2Checkout

Backend & Data Technologies
- Node.js, Express.js, NestJs
- Python(Django, Flask)
- PHP(Laravel, WordPress)
- Ruby on Rails
- RESTful API Development
- MongoDB, PostgreSQL, MySQL
- Redis, Firebase
- GraphQL, WebSocket

DevOps & Cloud Technologies
- CI/CD: Jenkins, GitLab CI, CircleCI
- Containerization: Docker, Kubernetes
- Cloud Platforms: AWS (Lambda, EC2, S3), DigitalOcean, Heroku
- Version Control: Git, GitHub, GitLab
- Web Hosting: Vercel, Netlify, DigitalOcean, AWS Amplify
